Professional Summary

Frontend Developer with 2+ years of hands-on experience building and deploying modern web applications, dashboards, productivity systems, and smart attendance solutions. Specialized in React, JavaScript, Tailwind CSS, and modern frontend development with strong foundations in Python, Object-Oriented Programming, Data Structures, and Database Fundamentals. Currently pursuing an Information Technology specialization at WE Applied Technology School. Seeking internship and junior frontend development opportunities.

Education

09/2024 – 2027
Egypt

Information Technology Student

WE Applied Technology School (WE ATS)

- Information Technology student specializing in Web Development and Programming.
- Coursework: HTML, CSS, JavaScript, Python, OOP, Data Structures, Databases, and Frontend Development.

Technical Skills

Languages

JavaScript (ES6+), Python, SQL, HTML5, CSS3

Tools & Platforms

Git, GitHub, VS Code, Figma, Netlify

Frameworks & Libraries

React, Tailwind CSS, Bootstrap

Frontend Development

Responsive Design, UI Development, Cross-Browser Compatibility, Modern Web Design

Programming Concepts

Object-Oriented Programming (OOP), Data Structures, Algorithms Fundamentals

Languages

Arabic

Native

English

Conversational (B1–B2)

Certifications

- Front-End Development
- Python Programming
- Web Development Bootcamp

Projects

Smart NFC/RFID Attendance System

ESP32, Firebase, RFID/NFC, JavaScript

- Developed a smart attendance management system utilizing RFID/NFC technology for automated student tracking.
- Implemented real-time attendance synchronization and management workflows.
- Designed an efficient system architecture to improve attendance monitoring and reduce manual processes.

AI Productivity App

React, JavaScript, Tailwind CSS, AI Tools

- Built a productivity-focused platform featuring task management, productivity tracking, and AI-assisted workflows.
- Designed responsive and modern user interfaces focused on usability and user engagement.
- Utilized AI-powered development workflows to accelerate prototyping and feature implementation.

Study Management System

React, JavaScript, Tailwind CSS, Firebase

- Developed a study management platform to organize academic tasks, schedules, and learning activities.
- Implemented structured data management and progress-tracking functionality.
- Focused on delivering a clean and intuitive user experience.

E-Commerce Dashboard (Admin Panel)

React, JavaScript, Tailwind CSS

- Built a responsive admin dashboard for managing products, customers, orders, and sales analytics.
- Developed reusable UI components and interactive dashboard interfaces.
- Optimized layouts for both desktop and mobile devices.
